

HCFA in advance." Congressional Research Service for the House Comm. on Energy and Commerce, 103d Congress, 1st Sess., Medicaid Source Book: Background Data and Analysis (Comm. Print 1993) at 1021.

AHCCCS represented that its difficulty in producing actual expenditures for emergency services resulted from the capitated nature of its program and the fact that undocumented aliens were not separately identifiable in the MI/MN population. Identifying the costs of emergency services attributable to payment made at a capitated rate would appear to involve some process of assigning a representative value to emergency services which would then be applied to capitated rates paid for Medicaid-eligible undocumented aliens. This process necessarily involves relying on data other than the payment amounts available in systems based on fee-for-service reimbursement.

Given the fact that the Secretary has approved AHCCCS' capitated system and given the fact that Congress has mandated emergency services for undocumented aliens, we conclude that some allowance should be accorded AHCCCS in establishing the amount of its capitation payments which was attributable to costs for emergency services and the population to which these services were provided. By this we mean that the fact that AHCCCS must rely on some method other than a strict accounting of actual expenditures for emergency services does not, in and of itself, mean that AHCCCS' claim is impermissibly based on an "estimate." On the other hand, AHCCCS has the burden of documenting that its calculations reliably establish the amount of its actual, allowable expenditures.

Therefore, we uphold this part of the disallowance, subject to reduction to the extent

AHCCCS fairly and reliably establishes, in accordance with our decision, what AHCCCS' actual expenditures for emergency services were during this time period. We urge the parties to consult about what information HCFA would need to establish the actual expenditures.

Conclusion

For the reasons discussed above, we conclude that (1) AHCCCS' costs for emergency medical services for undocumented aliens in excess of the federal medical assistance percentage (FMAP) are not allowable Medicaid expenditures; (2) AHCCCS' costs for nonemergency services, including prenatal services, for undocumented aliens are not allowable Medicaid expenditures; (3) AHCCCS' expenditures are not allowable where AHCCCS did not file a claim for those expenditures within the statutory two-year filing period; and (4) the part of AHCCCS' expenditures for emergency services for which AHCCCS timely filed a claim may be allowable at the FMAP rate if AHCCCS can establish that the claim was "based on actual recorded expenditures." While AHCCCS did not establish here that its method for calculating its actual expenditures was reliable, we conclude that, under the particular circumstances here, HCFA should provide AHCCCS a time-limited opportunity to show what its actual expenditures were for covered emergency services.

Accordingly, we uphold the disallowance in full, subject to reduction to the extent AHCCCS makes such a showing. The showing should be made within 30 days after AHCCCS receives our decision, or within such longer period as HCFA allows. If AHCCCS is dissatisfied with HCFA's determination on this limited issue, AHCCCS may appeal that determination to the Board within 30 days of receiving it.

[¶ 44,448] Drug Lists for Establishing Upper Limits on Payments.

State Medicaid Manual, HCFA Pub. 45-6, Transmittal No. 30, June 1, 1996.

Medicaid: Drug Reimbursement

Medicaid payments—Requirements for state plans—Reimbursement in general—Drugs-payment limits.—The *State Medicaid Manual* has been revised to update the list of multiple source drugs used by states to determine the upper limits for Medicaid reimbursement for prescription drugs

See ¶ 14,723.29

The prior drug list appears at 1996-1 Transfer Binder ¶ 43,968.

[CCH Note: Instructions for removing and inserting pages have not been reproduced here.]

ously published in the manual and is only being reprinted.

[Text of Revision]

Addendum A.—The following listing of multiple source drugs meets the criteria set forth in 42 CFR 447.332 and § 1927(e) of the Act, as amended by OBRA 1993. The development of the current Federal Upper Limit (FUL) listing has been accomplished by computer. Payments for multiple source drugs identified and listed in the accompanying addendum must not exceed, in the aggregate, payment levels determined by applying to each drug entity a reasonable dispensing fee (established by the State and specified in the State plan), plus an amount based on the limit per unit which HCFA has determined to be equal to a 150 percent applied to the lowest price listed (in package sizes of 100 units, unless otherwise noted) in any of the published compendia of cost information of drugs. The listing is based on data current as of April 1996.

The effective date of this list is August 1, 1996.

from the First Data Bank (*Blue Book*), *Medi-Span*, and the *Red Book*. The revised Addendum A no longer references the commonly known brand names. However, the brand names are included in the FUL listing provided to the State agencies in electronic media format. The FUL price list is updated approximately every 6 months.

In accordance with current policy, Federal financial participation will not be provided for any drug on the FUL listing for which the FDA has issued a notice of an opportunity for a hearing as a result of the Drug Efficacy Study and Implementation (DESI) program and which has been found to be a less than effective or is identical, related or similar (IRS) to the DESI drug. The DESI drug is identified by the Food and Drug Administration or reported by the drug manufacturer for purposes of the Medicaid drug rebate program.
